

Rankings Bergen 2014 ^[1]

These are the final rankings for the GEOSTAT Summer School 2014 in Bergen ^[2]. These rankings were derived using four basic criteria: (a) time of applications, (b) distance to the venue, (c) academic citations and (d) contributions to FOSS (R-sig-geo mailing list). The ranking number is derived as the average ranking and hence is often difficult to traceback. **The rankings are now closed. If you are inside the top 50 you should receive (by 20th of March 2014) an invitation letter and instructions on how to prepare for the course on your e-mail used during the registration.** Applicants from the waiting list might be invited after the first round of registrations.

	Academic citations:	FOSS contributions:	Distance (in km):	Application time:	
<u>Martínez-López, J</u> ^[3]	<u>10</u> ^[4]	3 R-sig-geo traffic: <u>7</u> ^[5]	1640.7	2014-01-20 11:46:17	1
